TriAngle Genius Bar · 系列 Series

HKBU VISION

工作坊 · Workshop by Yuan

The box: the slides on the Genius Bar, the tool itself, and the working docs.

WORKSHOP | Small group | HKBU students

MEET YOUR GENIUS

Yuan · HKBU

- Expertise:
- Framing where HKBU is going with AI
- Turning that into slides a class can follow
- Building the small tools that make it usable

WHAT'S INSIDE

The slides
an annotated autoplay walkthrough

The tool
GPA & risk, application planning, goal-setting, a gamified research roadmap

The docs
the internal working notes, kept together

WORKSHOP

[date & time TBC]

A working session on the HKBU Vision box: where the university is going with AI, what it changes for your course, and the tools that make it concrete. The box itself is password-protected — this session is the guided way in.
